

# HELEN SHANBROM ACE OF CLUBS RACE

Listed here are the top 10 players in each category of the Ace of Clubs race for the first 9 months of 2018 in Unit 154. This is determined by the points earned at the club level, with the exception of STaC games, since the "S" is "Sectional". The numbers following the names are the placement in the top 25 in District 12. The nine players whose photos you see at the bottom are those who placed in the top 100 of all of ACBL — which includes the U. S. , Canada, Bermuda, Mexico, and players from other countries who choose to belong to ACBL. Ed d'Ouille also has a place in the district competition with 57.84 points as **#16**.

Special congratulations to Joe Chin — with the most points of all players in Northwest Indiana. The Silver Life Master category is the most popular — 8 of the 10 players in the unit are from our area. There are 47 players who placed in the unit, and 43 players who placed in the district. In 8 of the 11 categories listed here, we have the first place person! Great showing!

## RUBY LIFE MASTER

I asked John Miller his secret for collecting so many masterpoints in so little time. Here is his response —

I began playing duplicate in 2011, but was working full time back then. The last few years I have been working part time, so I have had a lot more time to play — consequently I have received a lot of points. I always look over the hands after each game and review my mistakes — hoping not to repeat those same mistakes so often. I do like and admire all my partners.

These are the dozen players who scratched at the St. Joe sectional. WOW! Look at Roger!!
